Mentor Smooth Becker Expandable 25

Breast Implants || **Breast Implant Sizes** || **Mentor Breast Implant Sizes** || **Becker Expandables**

The Becker is the only gel product that gives you the option of a single or two-stage breast reconstruction. These unique products have an inner lumen containing saline that allows for tissue expansion and an outer lumen of gel, that is designed to provide a softer feeling implant. The remote injection dome makes volume adjustments simple and can easily be removed when expansion is complete.

Because of their patented dual-shell design, Becker Implants provide the feel of gel, with the volume flexibility of a saline implant. The Becker Implant is available in two surface styles: smooth and Siltex? textured.

Mentor Smooth Becker Expandable 25

25% silicone gel in outer lumen / 75% saline in inner lumen

Catalog Number	Size	Gel Volume	Temporary Overexpansion Volumes		Tot Saline	Tot Gel-Saline	Diameter	Projection
			TOV Max Saline	TOV Tot Gel-Saline				
350-0150	150cc	40cc	185cc	225cc	85-150cc	125-190cc	10.1cm	3.1cm
350-0200	200cc	50cc	250cc	300cc	125-200cc	175-250cc	10.9cm	3.3cm
350-0250	250cc	60cc	315cc	375cc	165-255cc	225-315cc	11.4cm	3.7cm
350-0300	300cc	75cc	375cc	450cc	200-300cc	275-375cc	12.5cm	3.8cm
