**Doctor's Comments**

This 36 year old patient from Wilmington Delaware found Dr. Pousti on the internet and was interested in enhancing her breasts. After having 2 children, her breasts were "deflated" and she wanted to get the fullness back. She and her husband were moving to California and wanted to have the best plastic surgeon in Southern California take care of them. After meeting with Dr. Pousti, they decided to proceed with bilateral breast augmentation. Dr. Pousti used 659 cc silicone gel implants. She is 5 months post-op with a beautiful result.
