

Fucking Normal

You scored 9 out of forty on the psychopathy scale

Oh Gods!! You're actually normal. In studies control populations of, normal people, show an average score of around 5, so be happy. You may be dull, but you aren't insane. Try to get and do something, have an orgy, kill a kitten, just enjoy yourself.

Your Analysis (Vertical line = Average)

You scored 9% on **Maddness**, higher than 26% of your peers.

CLEARLY ... I have a badly skewed self-image!

Mostly it's grandiosity. I excuse myself - on the grounds that I am -mildly grand-.

SERIOUSLY

PS: And I received 0, yes, that's ZERO, diagnoses of Antisocial Personality Disorder over all those years of "treatment". Is it not fascinating that an Evil Dud(ess) such as I sideslipped that one?

HINT: My "history" was 99% purpose-built bullshit; my OBSERVED BEHAVIOR was 99% fine.
