ADULT SERVICES UNIT aka

"Greater Binghamton Health Center"

Annexation of 101 Dates Rd.

Cayuga Medical Center 201 Dates Rd.

Ithaca, NY 14850

Formerly Child Surgical Unit Annex

to Old Hospital -

"Tompkins County Hospital"

Ithaca, NY 14850

2016-12-29 - INSERTIONS to Plotlines for
the G.T.A. ^{EXPI-ITS} "ROCK ME"

- "Interviews with Radiant Aliens of
'The Masterless Race'"

→ S.P.O.N.G.E. CNB. RIFF of "Life of Brian"]

- "Socialist Party of National-German
Entities" → ENTITY = REAL

CONCEPT - In between tours evaporating Nazis
with their fully automated Mk 507 Disintegra-
tors, the Hashashins de la Guild

Transsexuals or 'G.T.A.' seek out genuinely
superior beings - TRUE Aryan Aliens
↳ Teutonic Superbeings imbued with light
and beaming forth their beatific resonance
due their Ideal Connection with one

Zero Plane of the 11-dimensional continuum.

REDUCTION - The mildly-superhuman interviewers
of the G.T.A. invariably leave bemused wondering -

"Wow. What a state. Wish WE could achieve that."

Hey, wanna smoke some hash & work more on the
Code of the G.T.A.? (Coffee-Table Chats)

I am informed that the opinion held by the
Tibetan Buddhist masters of the Lamaserie
in the Lhaca area is that I

"Have Zen, but am not of Zen."

I concur, in that I am of an "activist" strain of
consciousness, attaining occasionally to higher
modes of awareness, but primarily concerned
with achievement in the sensible world of
"samsara," as some would have it, enjoying life
in the "doing & making" with attentive
compliance to the requirements of remaining
within the boundaries of Right Livelihood -
BUT ALSO attain to the role of VAJRA as
a defender of the Necessary and defense of
the weak and incapable against unconscionable
aggression.

paix,
Gmze Bayk

10:42 PM

This morning Clifford Ehrhke MD, NOT "my psychiatrist" at the Cayuga Medical Center Behavioral Services Unit - ZN, informed me that he was taking "my" forced medication of Geodon, which was at 120 mg daily, off.

I thanked him. He then informed me that he was placing me on Invega, and when I objected vociferously to the FORCED administration of this drug - under threat of INJECTION BY FORCE - he stated that he was "obligated by the court order [for "Treatment Over Objection"] to administer an antipsychotic drug.

I responded "That's BULLSHIT!" - and it is.

I am absolutely convinced, as I have stated repeatedly to Kara Field PhD, and others, that Ehrhke suffers from the DSM behavioral disorder "Narcissistic Personality Disorder" to no avail!

Sincerely,

Sam Ruff

6:52 PM

This afternoon a patient here in the CMC BSU-2N informed me, that - to his surprise - they do have bedrooms for patients "they actually think are dangerous to self or others," which have locked doors with television sets secured behind plexiglass with remote controls accessed through separate pads.

His name is Patrick Hopkins, a supervisor at the Imaca Bakery, according to what he told me.

I was never held in one of those bedrooms despite the claim I was in - purportedly - on a 9.3A "dangerousness evaluation." Patrick said this ward was for the safer patients.

WAY.

- Same Day

January 30, 2017

Psychiatric Technician

Neely Ferraro ~~RN~~ ^{PA} helped scan my nursing notes to determine that I was injected with 2 x 100mg shots of Thorazine — unnecessarily — sometime prior to 7:00 AM on the morning of 1 JAN 2017.

A patient, Julia [Session]? She identified herself to me as "Julia Poisson" earlier!?! and I were in the entry hallway of the BSU-ZN, and we were both upset at our treatment; she had suffered allergic reactions, visible as hives on her face, and I had NOT received the court hearing I requested as Dec 25 2016, which was MANDATORY within FIVE DAYS of my request. We were both somewhat loud; I retreated into my room and tried to ^{as requested, per} ~~disrupt~~ ^{persuade} staff I would calm down if they would leave me alone, but they persisted in harassing me, and after I refused a pill, FORCIBLY SUBJECTED me to shots which have left me with a pain in my right leg — One day 1/30/17

BAB

February 7, 2017 10:35 AM

Alison, Social Worker, informed me that the current Discharge Plan would require me to obtain services from Tompkins County Mental Health. I expressed willing acquiescence, and that I had been happy with the services provided by Linda Riley LMHC, who had been my therapist there - she was happy because she knew Linda personally!

John Cottrill RN then told me other parts of the plan, involving injection of Sustenna, the long-term ^{subcutaneous} shot for Invega, on which I am currently, and which leaves me sleepy and cognitively mildly impaired due to memory flaws. I expressed my outrage - loudly, considering this as abuse.

Dr. Clifford Kuster then told me on encountering me in the hall that I "needed the Sustenna onboard for release," and asked why I am always so upset when dealing with him. I expressed again my facts of the matter, that I came in as a Bangor anteburner.

BABY

FEB 7 2017 CONT.

voluntarily, not in a police car, and that there was no altercation at the Suncoast station at Grand Cayuga Street, prior to that, and that I was upset because "YOU'RE A SKEETER!", and mis-stated the facts in claiming he was "obligated" to dose me with antipsychotics under the court order, as discussed with Justice Horby-Cambria yesterday, and ~~and that~~ that the medical malpractice suit I would bring against him would be a thousand times worse — that I would take the lawyer if required, until the feds at TCMK take me off it,!

They treat me as a disbarable, unreliable person solely because of my temperament, which is an unjustifiable abuse of power under the law. I acknowledge I suffer from Hysterical Personality Disorder and Temporal Lobe Epilepsy, but am NOT dangerous to self or others, in the face of which I make maintenance — ludicrously — that I have "benefited" from the lawyer, where

BADP

Feb 7 2017 cont. 10:42 AM

The primary effect of the drug is to make me sleep all day! ~~and~~

Sincerely,

Gene Rye

Feb 7 2017 1:30 PM

Or want to sleep?

Anyway, at 1:25 PM John Cottrell RN gave me a shot of Sustenna 234 mg in the left bicep. "We'll see how this works - NOT. To help with my NONEXISTENT "Psychotic Disorder NOS."

I asked to see ~~the~~ my Discharge Plan, but it isn't ready yet.

Sincerely,

Gene Rye
